

# ENVIRONMENTAL SUSTAINABILITY POLICY CARLTON HOTEL SINGAPORE

Carlton Hotel Singapore is fully committed to raise awareness, among the building's staff, tenants and other building users, on issues pertaining to environmental protection that benefit the environment. We will incorporate environmental protection in our strategic decisions and conduct our business and building management in a manner that will be able to suit to the environmental and economic needs of the many.

## **In line with our shared value to care for the environment, we shall:**

- Respect and comply with all applicable local, national and international regulations concerning our organization regarding the environment.
- Measure and report key metrics related to energy, water and carbon for the global portfolio, with a long term goal of regularly reporting performance for all properties.
- Certify buildings in our portfolio in accordance with recognized certification systems, with a long term goal of receiving certification for all new properties.
- Provide services with minimized risks to persons, including commitment to prevention of injury and ill health.
- Provide services preventing pollution and all aspects of the environment.
- Manage our building, assuring the protection of the buildings' users and neighboring communities and to reduce to a minimum impact of any such harmful activities on the environment.
- Prevention pollution by considering environmental requirements in land use and procurement of goods and services.
- Continually improve our environmental performance by setting and reviewing environmental objectives and targets.

**The management of Carlton Hotel Singapore will adhere to this policy by making continuous efforts to create a cleaner and greener environment for all.**
